

TQC Standard Series 10 Leak Test Solutions

TQC have recently developed a series of standard leak test benches, the simplest and most cost effective is the Series 10.

The Series 10 leak test bench incorporates a manually actuated sealing fixture with a leak test instrument.

Key Features

- Fixture nest to locate the part
- Manually applied toggle clamps and seals
- Leak test instrument
- Suitable for low cost, low to medium volume application
- Configurable for either over-pressure, vacuum or dosing applications.
